BIRTH OF INTELLIGENCE

EXECUTIVE SUMMARY**MISSION STATEMENT**

Establish an organized structure - “Enlightened Enterprise”

Purpose: Creative Thinking Which Facilitates “Evolutionary Shift” and Collaboration

FOCUS - Global Format

- ❖ How Future Will Unfold
- ❖ Ubiquity Of Truth; Knowledge, Flow Of Intelligence, Absolute Reality
- ❖ Religion(s), Sciences and Spirituality
- ❖ Traditions and Cultures

SOUL ENTERPRISE

1. **Love and Compassion** – Moral and Scientific Values, Inner Talents and Passion
2. **Inner Wealth** – Culture, Spiritual, Religious and Scientific IQ
3. **Giving** – Sharing Wealth, Philanthropy and Controlling The Flow Of Assets
4. **Higher Power** – Spiritual Gifts, Humility, Gratitude, Faith and Trust
5. **Trustee** – Future Assets and Intellectual Property

EVOLUTIONARY VALUE

- ❖ Innovation Of Thought Process
- ❖ Traditions and Practices Will Result In Evolutionary Format
- ❖ Humanity Over Preference Research
- ❖ New Values Will Lead To Paving Path For Future

This essay has been written in light of vision and manifestation, as it summarizes absolute reality, future and truth, as experienced by the author. It builds a case which rationalizes creation; awareness and higher modes of transformation. It highlights how and where gaps are and created, which become the cause of various short-falls in our society, specifically in light of the post impact of events and competing economies.

It is important to gain understanding of the present, which is built on past knowledge and thinking. Therefore truth can never be realized. Additionally by-laws that govern our society, classification, morality and realization, will play a critical role in shaping our future.

Today people and institutions are being severely hindered, because of knowledge gap and specifically when inequalities seriously marginalize participation in social and cross-cultural domains. Moral equality and human dignity are also context dependent that depends on the relative equality and treatment of social goods in a particular society.

A civilization or a society when classified must represent strengths of its intellectual strength, moral code, values and realization of its people. A civilization that loses its moral bearing is heading for disaster because all failures in history have been moral failures; failure to evolve in light of “**Absolute Truth**” and **Beyond Material Things**.

BIRTH OF INTELLIGENCE

Future is not about making choice between freedom and suffocating community but between a society based on reciprocal respect and solidarity and a society that leaves many people behind.

In order to gain clear understanding of this “Future Paradigm”, we must understand Truth and where it is hidden.

1. Knowledge of the Self (Mind, Consciousness, Intelligence, Spirit and Soul)
2. Human Knowledge versus Transcendental Knowledge
3. Gap Between Understanding and Application of
 - Eternal and Material By-Laws.
4. Relationship Between Truth, Intelligence and Reality
5. Cultures, Traditions and Religion
6. Laws that govern the Self and Societies

It is important to understand existing forms of advanced knowledge; its consumption and how it is applied. Our knowledge is incomplete because we have not been able to reconcile various sources from where truth can be attained. Therefore truth is missing in many forms. Additionally truth of the soul, mind and matter are different. Secondly, a methodology by which truth is discovered is different. Finally we must understand today’s practices that groom professionals to process advanced knowledge.

Received knowledge in modernization is very limited because “Truth” can not be experienced. It is being created by mind’s super-imposition which is usually stored in short-term memory which lies below the pre-frontal cortex. Such knowledge is a by product of short-term traces of past impressions and deliberate actions. Additionally it adds mental distortion. Therefore Mind must be conditioned in its purest form.

Only a “Pure Mind” can experience “Truth”. When such truth manifold is experienced and consumed in the form of transcendental or heavenly knowledge it enhances intelligence. It is such Enhanced Intelligence many folds which creates Absolute Reality. Experiencing such reality in many forms and stages explains how future and specific events will unfold

Therefore knowledge required for the future, and thereof must be created in order to reduce the deficit in the momentum required to close such a gap.

KNOWLEDGE OF THE SELF

(Supreme Consciousness; Inner Being)

- Darkened State Of Mind

Mind and emotional noise, greed which leads to theft and stealing, anger which leads to vengeance and war, ego which leads to sense of power and i-ness, create polluted sensory data which is stored in our mental field called the prefrontal cortex. If the mind keeps receiving thoughts, stored in our short-term memory, where such noise is stored it propels evil actions.

However when such incoming sensory data is received and stored properly, the mental field remains quiet and steady. As a result people can pull together to create a social world based on

BIRTH OF INTELLIGENCE

their shared values an instilling state of “collective self realization” which is good for psychological and mind fitness. However psychologists cannot explain which part of the brain is responsible for such an experience.

Power and Privilege

The most civilized minds can perpetrate appalling acts today. As researched, lack of moral values and absolute power lead to misjudgment, lack of rationalization and loss of intellectual depth. Specifically when people are put into groups and given power also called as group power. Individuals lose intellectual capacity and moral judgment; hence groups are inherently dangerous. Such collective judgment can turn into an inevitable impetus for people to act tyrannically.

Because it is the mind field which traps such emotions and it stands between inner consciousness and supreme consciousness. When the mind is involved in disturbing actions, or cram jumble of jolting experiences into our thoughts and memories the mind field becomes polluted and corrupt.

A polluted and corrupt state of mind is disillusioned, confused and selfish. It cheats, reflects a distorted picture of inner truth hence propels evil thoughts and actions. On the contrary a pure steady mind reflects reality accurately, creating conditions for successful life and conception in the external world and for dawning of spiritual understanding.

- Facts Lead To Awareness and Understanding

Today US and Europe account for about two fifths of global economic output of \$40,000 Billion. By 2025, the overall global figure may increase 21 times to \$100, 000 Billion. China and India may account for about two fifths of that. It will almost certainly create several tensions with today’s leading economies as they are challenged for global economic dominance. China and India with populations of more than \$1 Billion each will create turbulence as the stealth economies pick up speed. East is transforming much faster by adapting to the ways of the West.

- Heightened Awareness Leads To Realization

Understanding Economics:

Like other disciplines, economics is more than a field of inquiry; it is a way of thinking. The way of economic thinking which has prevailed during the last five generations or so, follows the pattern or system of ideas or set of principles which achieved general acceptance. The common definition of economics as the science of wealth, with the implication of “Money Values” which the term "wealth" carries in the modern world, is both an expression of this way of thinking and a corresponding identification of the world of commerce as the field of inquiry in which it prevails.

Among economists this system of ideas is known as the classical tradition to distinguish it from other ways of thinking which various people have proposed from time to time both before and after the appearance of the science of wealth. For some little time and with progressive acceleration, in recent years this way of thinking has been falling into disrepute, and for obvious reasons. There was a time when the economic life of the Western world seemed to be atomistic. The uneasiness people feel in the contemplation of such inevitable change is due in large part to not knowing what to think about it.

BIRTH OF INTELLIGENCE

- Realization Leads To New Consciousness

“The community at large is well aware of being intellectually unprepared for change, and it is the persistence of the old ways of thinking which is responsible for this intellectual un-preparedness. Our complexities of the future go much deeper than immediate issues of our economic policy.”

KNOWLEDGE OF TRUTH

- Heightened Consciousness Leads To “Mind Shift”
(External Manifestation)

“Our future (Human Minds) is being impacted and led by an External Shift with Globalization, Geo-political Threats and Exposition of New Truth – Economic Output.

To harness future growth we must prepare and overcome future challenges first. In order to do so we must transform our thinking and practices.

However such an Evolutionary Shift is not possible without making a sacrifice, attaining advanced knowledge, realizing higher consciousness, inheriting virtues, and traits”.

In each individuals life or society, the restless search for love and peace, compassion and success, for change, for happiness, for advanced knowledge are all a witness to the underlying need towards Higher Evolution leading to, awareness of a reality, discovery and new creation, of that we sense but cannot reach.

- “Mind Shift” Exposes Truth

Future must be understood and actions abhorred with clear mind, pure consciousness, and in absolute truth. In this increasingly interconnected world individuals have more power than before, at their fingertips, therefore society needs to have more clarity of mind, soul and a sound vision, however improbable.

- Spirit Testifies Creation

Knowledge of the Self (supreme consciousness) and its realization, awakening to an expanded vision and cosmic truth is not a curious mental exercise, as one is subject in the process of reassessing the nature of Self clarified. Experiencing the individual Self in various forms and stages (Quantum Self) of development, time (events) and space (creation of mind or matter) and converging upon higher knowledge, in absolute truth, is an inner quest, within which one is capable of attaining the Spirit of Light, and the Spirit of Truth, which is the Spirit of Jesus Christ. It requires spiritual depth and pain which fuels the soul in order to realize the Spirit.

BIRTH OF INTELLIGENCE

- Supreme Consciousness and Inner Truth

Spirit of God is shown through the Word; (which comes from inner truth and realizing supreme consciousness) the Word is shown through the creation of the world and all species that inhabit it; and The Holy Spirit is shown through the Word being made flesh. God is the one who brought the Word into being before the beginning of time. The Word is the one through whom all creatures are made. It is Spirit which enters creation at particular moments

Birth Of Intelligence:

- Consumption Of Truth Enhances Intelligence

It is in such a state one becomes creator of higher intelligence by separating the principles that govern mind and matter. It is during such stages of development one can attain various meta-physical energies of transformation, experience magical powers and even unfold future events.

Within the creation comes into being the logic, reason and awareness or understanding, which is the real authority born of its own order and hence is equivalent to God himself. As all laws of various sciences of mind, matter and soul work in union and harmony, the qualities, traits and virtues within is the manifestation and proof of God being within each one of us.

- Illumination

If one accepts birth of awareness and varied levels of consciousness and its evolution as a part of God's manifestation, the faith born out that very awareness will drive away the intellectual enquiry as a question in absurdity. When the horizon of our inner consciousness is darkened by mental confusion, impurities of action and thoughts, one fails to receive such illumination as a grace of the Self.

However, when one practices Self-discipline, mount the steps of repentance, breaks into tranquility and non-attachment, it is a gift of the spiritual fire that is bestowed upon by God in His own gracious way in which He governs the world.

Your inner faculties of creation and senses build up with love, sweetness, heart and soul. It is at this stage one reaches a Quantum State of mind, that you begin to see God in creation. This in turn leads to an enlightened state of mind. Endless stream of enlightenment is possible to realize in absolute truth.

Soul is the essence which is transparent to God and to which God is transparent. As long as the soul remains true to itself, it becomes receptacle of infinite dimensions in to which the spirit of God can enter and in which God can receive and bestow joy.

The soul is the path by which the spirit of God enters all human beings; soul is the God's home on earth. So long it is not being fulfilled it is restless, in pain and never satisfied. It is because mind powers the Self such restlessness continues until a state of equilibrium is between mind, body and soul is attained.

BIRTH OF INTELLIGENCE

- Enhanced Intelligence Leads To Reality

It is such an experience which gives birth to new intelligence and is open to all those who struggle to live righteous lives, who are vigilant and care for humanity. Gradually, as consciousness heightens, the spirit takes control of the soul one becomes utterly unaware of the Self as a distinct individual. Two beings, two entities cannot occupy the same space. Similarly God or its spirit cannot occupy your soul. If God or its spirit takes control then the Self must leave, pride, ego and various faculties of darkness must evaporate

At this stage, soul transcends the body and is no longer constrained by the bodily needs and feelings. It is thus free to receive every kind of revelation that the spirit can give. The spiritual fire causes the seed of truth within each one of us to rise up and thrive bearing spiritual fruits in the form of Heavenly Knowledge. Creation of “future knowledge and intelligence” is also God’s gift

Attaining Absolute Reality

METAPHYSICS

It requires a step by step methodology to invoke various dimensions and stages of spiritual elements of the Self. Key areas of the brain can be enlarged through constant training and concentration on the future. Different states in the brain can correspond to profoundly different types of consciousness.

- Future Mind

By reproducing neurons in certain part of the limbic system the activity of the brain allows for gene manipulation. How these neurons respond to stimuli explains how future can be predicted or unfolded. Stimuli is this sensory input , altered state of mind, consciousness and other forms of spiritual instigation are most potent forms of stimuli to generate activity in the brain. The output of neuron stimuli thus results in an experience which transcends past, present and the future.

- Entering The Odd Quantum

This change leads to diffusion, reality collapses, which opens up the possibility for the brains behavior to be affected by Quantum Mechanical processes and opens the door for all observer characteristics of the Quantum world, to enter as well. Higher consciousness is very relevant to the physics of quantum mechanics, the neurophysiology of the synaptic structures is important if we are going to understand where mind really hides the brain.

It is important that mental science does not deny the divinity of the spirit or spiritual truth but it affirms divinity of all people. Therefore every thought must be centered in the eternal mind where in lies the center of intelligence. It is because of its unified nature, if attained, its role is to realize a perfect vision, a perfect creation and a perfect conception.

BIRTH OF INTELLIGENCE

- Reality Manifolds Lead To Future Reality

The deeper one goes in into the realm of the Self experience, the more one discovers in common amongst human beings. It is at this stage a deeper shift can occur in the brain and new intelligence takes birth (future intelligence).

Our aim outside the imprisonment of the wheel of time and narrow limits of existence is to uplift ourselves out of our entanglement to an awareness of the real, which is behind and beyond all times and history; that which is “absolute.” The ultimate aim in life on earth is to become aware by experience of this ‘absolute reality’.

It is important understand that such an experience can only be experienced by removing yourself from the world we live in.
